Bella Vista, AR 72714

Dear Daniel,

I would like to thank you for the restoration job you completed at our church. This was a difficult project from the onset. This is a historic building and needed much care and consideration. You worked to help get everything we needed approved through our insurance company.

While on site, you exhibited an excellent work ethic. You worked with us well throughout the entire project. Your work was meticulous. We were thankful that you were very careful and safety conscious. The cleanup was second to none.

We would recommend you and your company to others needed copper and roofing work. It has been a pleasure.

Sincerely,

Handwritten signature of Randy Coleman in blue ink.
